Tom Divers DVM, DACVIM, DACVECC:

Dr. Divers received his DVM degree from the University of Georgia in 1975, and became board certified with the American College of Veterinary Internal Medicine in 1981 and with the American College of Veterinary Emergency and Critical Care in 1996. Dr. Divers was an assistant professor in ambulatory and internal medicine at the University of Georgia from 1978-1981. He was a faculty member at the University of Pennsylvania from 1981-1990, serving as associate professor and Chief of the medicine section from 1985-1990. He has been first an associate professor and then a Professor at Cornell University since 1990 and is currently Chief of the Section of Large Animal Medicine. Dr. Divers is an author of numerous peer-reviewed publications and has received distinguished teaching awards at both Cornell and University of Pennsylvania and the 2006 AAEP Educator of the Year award.

Grant Myhre DVM:

Dr. Grant Myhre brings over 40 years of referral experience, the most in New England, to MEC. Arriving in 1978 after completing an equine surgery residency at Cornell University, Dr. Myhre has led the facility, becoming instrumental in the development of the complex. Many others have contributed to the success of the facility over the years and their efforts are appreciated. In 2008 Dr. Ron Vin joined MEC full-time, adding his expertise in internal medicine.

With newly remodeled facilities in 2005, Rochester Equine Clinic evolved into Myhre Equine Clinic continuing the same high quality of care. New state-of-the-art technology takes MEC to the highest level of veterinary diagnostics and care. Myhre Equine Clinic has the most experienced veterinary surgeon, diagnosticians and highly educated caring staff to work with our digital radiography, Computer Assisted Tomography (C.A.T.), Magnetic Resonance Imaging (MRI) and nuclear scintigraphy.

We appreciate your referrals. This conference is our means of demonstrating that appreciation.
