3:30-5:00 Continue lameness lecture/lab *Dr Moyer*

Please refer your difficult lameness cases for the lameness/corrective shoeing portion. Both farriers and veterinarians are encouraged to participate in the workup and farriery of the cases. Clients may receive up to 50% discount on services.

Dr. William Moyer received his DVM degree from Colorado State University in 1970. He then completed his surgical residency at New Bolton Center, University of Pennsylvania in 1973; and owned/built a private veterinary practice in Kennett Square, Pennsylvania.

He maintained the private practice until 1980 whereby he became an assistant professor of equine surgery at New Bolton Center. He ultimately obtained the rank of Professor of Equine Sports Medicine. He created the equine lameness referral practiced along with directing the farrier enterprise until 1993.

He was recruited to the College of Veterinary Medicine & Biomedical Sciences, Texas A&M University, as Department Head of Large Animal Clinical Sciences. As Department Head he had responsibility of the clinical services, curriculum, and related activities. He continued in that role until 2013 whereby he and colleagues developed the first Veterinary Emergency/Disaster Management Team (TAMU VET).

He has served as an officer of the American Association of Equine Practitioners (President in 2011). He has 145 publications, including text books; and has given over 400 presentations regarding equine lameness and foot problems.
